

YOU THERE! DON'T BE SHY... LET'S CHEW THE FAT. I GOT A BONE TO PICK WITH SOME SCIENTISTS AND THOSE BOOKS THEY BEEN FEEDIN' YA ON PREHISTORIC ANIMALS! IT SEEMS A FEW PAGES ARE MISSING! PAGES CONCERNING ANIMALS SO BIZARRE, SO UNBELIEVABLE THAT GENERAL KNOWLEDGE OF THEIR EXISTENCE COULD THREATEN THE CREDIBILITY OF THIS SCIENCE CALLED PALEONTOLOGY. I'M "THE OLD FOSSIL," AND I'M GONNA SPILL MY GUTS ABOUT THE WORLD OF 100,000,000 YEARS AGO AND THOSE...

DINOSAURS

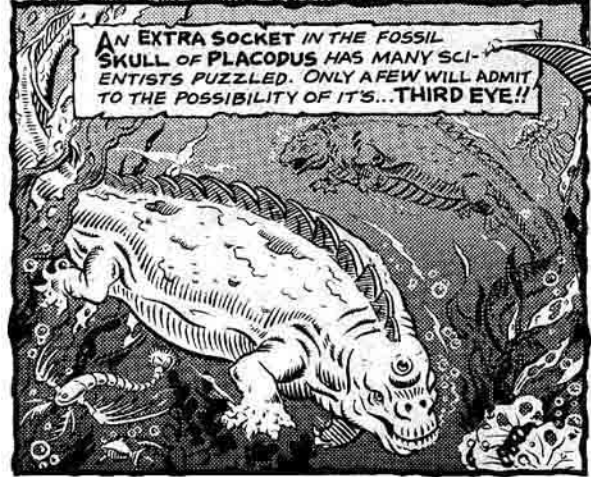

YOU DIDN'T KNOW ABOUT!

IT WAS A RELATIVELY YOUNG WORLD, WITH VAST TROPICAL JUNGLES AND TOWERING MOUNTAINS NOT YET WORN SMOOTH BY TIME. FOR THE NEXT FEW MILLION YEARS IT WOULD BE NATURE'S LABORATORY...

MUTATIONS, CROSSBREEDING AND WEIRD HYBRIDS BECAME THE ORDER OF THE DAY, AND NO EXPERIMENT WAS TOO FAR OUT...FRINSTANCE...

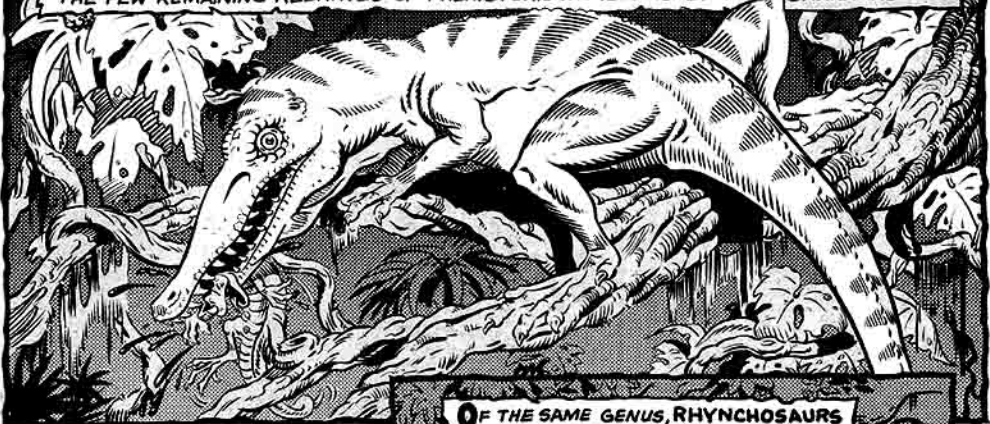

AN EXTRA SOCKET IN THE FOSSIL SKULL OF PLACODUS HAS MANY SCIENTISTS PUZZLED. ONLY A FEW WILL ADMIT TO THE POSSIBILITY OF IT'S...THIRD EYE!!

THE RECENTLY DISCOVERED "TEXAS" PTEROSAUR REALLY LIVED UP TO ITS NAME...

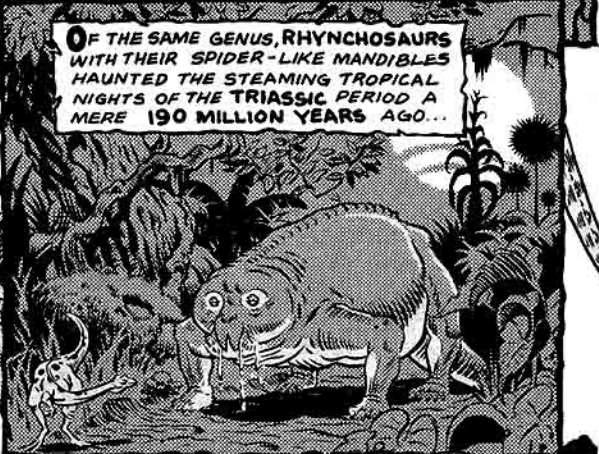

...WITH A WING SPAN OF 50 FEET IT QUALIFIES AS THE LARGEST FLYING CREATURE OF ALL TIME!

THOSE SMART ASS SCIENTISTS HAVE JUST REALIZED PRESENT DAY BIRDS MAY BE AMONG THE FEW REMAINING RELATIVES OF PREHISTORIC MONSTERS LIKE CHANARASUCHUS

IN FACT, HALF-MAMMAL HALF-REPTILE, THESE THERAPSID'S JUST MAY FIT SOMEWHERE ON YOUR FAMILY TREE!!

OF THE SAME GENUS, RHYNCHOSAURS WITH THEIR SPIDER-LIKE MANDIBLES HAUNTED THE STEAMING TROPICAL NIGHTS OF THE TRIASSIC PERIOD A MERE 190 MILLION YEARS AGO...

AS THE FOSSIL REMAINS OF CREATURES LIKE THE FORTY FOOT LONG TANYSTROPHEOUS CONTINUE TO BE UNEARTHED NEW QUESTIONS ARISE. QUESTIONS CONCERNING THE FORM, STRUCTURE AND LIVES OF ANIMALS WHO RULED THE EARTH FOR 130 MILLION YEARS THEN, SUDDENLY, VANISHED!!!
